

**Your Partner in Decarbonization**

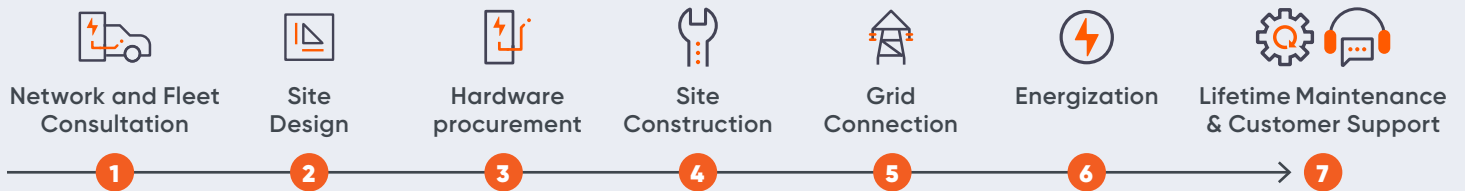

Formerly known as Goldman Sachs  
Renewable Power

## Distributed Energy Solutions

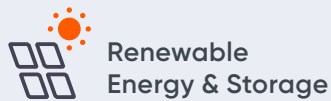

We Develop, Own & Operate Clean Fueling Infrastructure

## Your EV Fueling and Infrastructure Partner

Turnkey Charging Infrastructure at No Upfront Cost

## MN8's Value Added Services

### Core Offerings

#### Fleet Electrification

- Bespoke, dedicated charging solutions
- Colocated / multi-tenant shared hubs

#### Public Charging Assets

- White-labeled customer-branded charging networks
- Customer defines entire charging experience

#### On Site Decarbonization

- Solar, storage and microgrids
- Thermal resiliency solutions

## A New Standard for EV Charging

### OPPORTUNITY

Mercedes-Benz had a vision for \$1 billion, 100% clean energy-powered high-power charging network, and needed a partner that could combine strong financial backing and the capabilities to identify sites and develop, deploy, maintain and jointly own the charging infrastructure to make the network a reality.

### SOLUTION

MN8 Charging provides industry-leading, end-to-end project development, energy management, and maintenance and operations support to the Mercedes-Benz High-Power Charging\* network in the United States. 14 charging hubs across the US are currently in operation, with charging stations in Texas, Florida, Kentucky, Alabama, South Carolina, Georgia, and Tennessee.

Retail Sectors Served:

\*Mercedes-Benz High-Power Charging (MB HPC) is a joint venture between Mercedes-Benz Financial Services Investment Company LLC and MN8 High Power Charging Leasing, LLC, a subsidiary of MN8 Energy LLC.

## Why MN8?

We are relentlessly making energy smarter, cleaner, and more efficient.

### → Experience

Our MN8 founder-led team has decades of experience in site selection, engineering, permitting, construction, and operations.

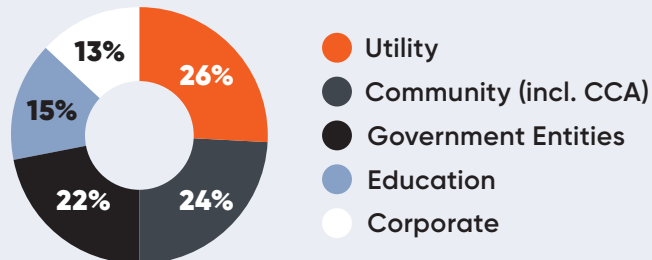

### → Financial Strength

MN8's strong financial performance allows us to continually fund new project development.

### → Long-Term Owner

MN8 partners with enterprise customers, property owners and communities to develop, construct, own, and operate projects for their entire life cycle.

## Who We Serve

## Select Customers

## Our Team

Our founder-led company has over 475 years of experience in the renewable energy industry, and has developed or operated over 150 gigawatts of projects, including charging hubs across North America.
